Memorandum

 \mathbf{OT}

C/GSD

DATE: 27 July 1965

FROM

DAD/S&D

SUBJECT:

25X1A As I recall, we had a brochure from a firm describing a instantaneous frequency measuring equipment, and the objective was to make an evaluation of that equipment. This memorandum does not refer to the ______ equipment 25X1A but simply states what equipment, which GSD has developed, 25X1A does. I think that preparation of two columns of 25X1A figures, one representing the equipment, the other the equipment would be much more meaningful, particularly 25X1A since I suspect there might be a considerable amount of discussion on this subject. Would you please redraft along those lines.
